WE ORGANIZE YOUR **TRANSFORMATION TOUR** AT ZOLLVEREIN

The Zeche Zollverein and the structural change in the Ruhr area - these terms visualize the change of a region from the coal and steel industry to the service society - this is transformation!

The tour around the portal of industrial culture, the Ruhrmuseum, with the exhibition area of the industrial barons and the viewing platform above the coal preparation plant is an interesting door opener to find a connection to congress topics like „Change“, „Future“ or „Digitalization“. If you look northwards on the platform, you will discover the old Ruhr area with its refineries, dumps and chimneys. The skyline of downtown Essen in the south, on the other hand marks the center of the Ruhr Metropolis.

OUR TRANSFORMATION TOUR HIGHLIGHTS

I. Tour Ruhrmuseum

Participants will be received by experienced guides at the visitor center and divided into groups.

The first highlight is a visit to the Ruhr Museum including an „experience tour“, which is limited to the main industrial-cultural sights.

II. Portal of Industrial Culture

After the tour, it goes to the lower floor of the Ruhr Museum. In the former coal washing plant, your participants will find out about the industrial-cultural panorama of the Ruhr Metropolis and North Rhine-Westphalia in the „Portal of Industrial Culture“.

Multimedia staging and innovative information stations show the anchor points of the route of industrial culture in its former and current use: they „grow“ out of the seams and show with images, text and sound the monuments of the industrial age in history, present and future.

Highlight of the portal is the exhibition of the RUHR.2010 with the 360° panorama film „Ruhr 360“. This unique contribution is designed to offer your participants a moving introduction to the Ruhr Metropolis and to experience the wealth and perspectives of industrial culture in North Rhine-Westphalia. Like in a movie theater, surrounded by film, the spectators immerse themselves in a breathtaking staging. Surrounded by birch forests, on the Rhine, in the research laboratory, in a concert hall or in a Fan stand at a soccer stadium, they experience the numerous facets of the region and are always in the thick of it.

Furthermore, there is an open lecture area in the „Portal of Industrial Culture“, with auditorium character. It offers room for contributions to represent a bond between your company and the topic of „transformation“.

Here we can provide the framework and guide your participants to the right places. The integration of possible contents can only be done by you, because you know the topics and contents of the conference exactly.

INFORMATIONS ABOUT RUHRMUSEUM

- Memory and showcase of the Ruhr Metropolis
- Collections on geology, archeology, history and photography with regional references
- Permanent exhibition on nature, culture and history of the Ruhrgebiet
- Over 400,000 visitors saw the permanent exhibition in the first year

INFORMATIONS ABOUT THE „PORTAL“

INVENTING... CONSTRUCTING... RACING!

05

WE ORGANIZE YOUR SOAPBOX DERBY AT ZOLLVEREIN

The scenario: The participants build in teams a large vehicle course with different action elements. Within each team the following tasks have to be mastered:

- 1 INVENTING | With the help of a soap box kit you develop and design your individual racer
- 2 CONSTRUCTING | Construction of a course element and development of an action scenario
- 3 RACING | Driving through the course incl. Action scenario with competition

Creativity, diversity of ideas, craftsmanship and technical details unite and offer opportunities for all involved.

DESCRIPTION

Vehicle construction: The basis are soap box kits produced by carpenters. This ensures good quality and stability. The basic design offers the „vehicle manufacturers“ further design and expansion options to highlight the individuality of the vehicles. Additional building material is available.

The course elements: The elements are built with different materials. Appropriate tools are available. Technical details and creative ideas bring in the participants themselves and make for surprising results in the large final scenario. To ensure that all course stations are coordinated, each construction team must integrate a vehicle-specific theme into the course element (for example, a refueling process, a workshop check, a crash test, etc.).

The Action Scenario: A task is integrated into each element, which will be executed later in the course process and which involves the vehicle. For example, a refueling process must be carried out. The team itself develops the procedure and competition rules for the task. Humor, creative ideas and movement are at the center of the action.

At the end of the team building event, all teams move through the course with the vehicles. At each station a task has to be solved in the competition.

There is a lot of movement and dynamics in the game. All participants are in action at the same time, support each other and fire up!

WE ARE PLANNING YOUR GPSRALLYE AT ZOLLVEREIN

„Offside from known paths you discover new territory“

In developing new workshop content and concepts, we are breaking new ground according to our motto.

GPSRALLYE.com represents a self-developed format of our agency. tenor®.

From the conventional outdoor tour, to team-building measures, the mediation of corporate strategies and the reflection of workshop content - GPSRALLYE.com develops individual tours - nationwide - at interesting locations.

This results in our formats: „Walk and Talk“, „Explore and Discover“, „Go to market“ und „Express yourself. Be part of it!“

As part of the conception of your workshop contents, we are pleased to support you.

Egal ob Morgens um 10:00 Uhr im Hunsrück oder „auf der Reeperbahn nachts um halb eins“ - wir organisieren das!

Unsere Zielgruppe stellen Unternehmensveranstaltungen von 30-300 Personen, wie auch das Co-Branding für Stadtmarketing Gesellschaften, dar.

GPS RALLYE.com begutachtet das Gelände, erstellt Kartenmaterial, stellt die Guides und das komplette Equipment - vom GPS-Gerät bis zum Multitool.
