AT A GLANCE

FACTSHEET OKTOGON

Oktagon

On the foundations of the former cooling tower, an octagonal building in modern industrial design was erected as a quotation from the old design. The Oktagon is a versatile venue for events of all kinds: press conferences, meetings, exhibitions, presentations, gala events and more.

Studio stage on the ground floor

With about 900 square meters on the ground floor, the OKTOGON offers optimal conditions for studio fixtures, meetings, exhibitions, congresses, gala evenings and more event formats.

Gallery on the first floor

The upper floor of the OKTOGON offers, as a gallery, exhibition space and at the same time side rooms which can be used as back office or as VIP areas.

Exterior surfaces

In addition to the own studio space waiting for you is a 300 m² paved outer area as well as a summer garden with another 300 m².

i
